## TOWN WARRANT

---

STATE OF NEW HAMPSHIRE

**To the inhabitants of the Town of Greenland, in the  
County of Rockingham, in said State, qualified  
to Vote in Town affairs:**

You are hereby notified to meet at Moody's Hall in said Town, on Tuesday the eleventh day of March next, at ten of the clock in the forenoon, to act upon the following subjects:—

1. To bring in your ballots for the election of delegates-at-large, alternate delegates-at-large, delegates and alternate delegates to the national conventions of the Republican and Democratic parties, to be held to nominate party candidates for president and vice-president of the United States.
2. To choose by ballot all necessary Town Officers for the year or years ensuing.
3. To see if the Town will vote to accept State Aid for the permanent improvement of highways, under the laws of 1905, and raise and appropriate the necessary sum of money for the same.

4. To see what sum of money the Town will vote to raise and appropriate for the maintenance of State Aid Roads.
5. To see what sum of money the Town will vote to raise and appropriate for the maintenance of the Trunk Line Highway.
6. To see what sum of money the Town will vote to raise and appropriate for repairing Highways and Bridges.
7. To see what sum of money the Town will vote to raise and appropriate for the support of the Weeks Public Library.
8. To see what sum of money the Town will vote to raise and appropriate to defray Town charges for the ensuing year.
9. To see if the Town will vote to raise and appropriate a sum of money for the control of the White Pine Blister.
10. To see if the Town will vote to raise and appropriate a sum of money to pay the Portsmouth Fire Department for Fire Protection.
11. To transact any other business that may legally come before said meeting.

Given under our hand and seal this twenty third day  
of February in the year of our Lord nineteen hundred  
and twenty four.

ELMER D. MOULTON,

JOHN A. CHAPMAN,

RICHARD S. MOODY,

Selectmen of Greenland

## LIBRARY REPORT.

---

The twenty-sixth annual report of the Weeks Library for the year 1923-24 is submitted to the town.

Unusual expenses and the temporary loss of interest on the Salter bequest have reduced the amount available for books, so that the total number of additions is 127, of which 9 were presented. Besides this number several which were destroyed by fire had to be replaced—all expensive volumes. Mr. Reginald Kennard has generously given us 87 volumes which did not reach us in time to be listed in this year's report. Some of these are duplicates, but most of them are new to our shelves and are a welcome addition. The circulation has felt somewhat the lessened population of the winter, but a few more borrower's cards than usual have been issued.

By trying to meet the insistent demand for fiction and children's books we have been unable to buy much non-fiction. This class of literature is far from being as popular here as it is in most other towns.

The enlarged card catalog has been of great service and the one pipe furnace is a success, so the unusual expenditures were worth while and we shall feel the benefit of them for many years.

The list of accessions follows:

## GENERAL LITERATURE

Admirable Crichton. Barrie  
 Arabian Nights' entertainment. Overton. (Presented)  
 Collation of cakes. Murphy. (Presented)  
 Contemporary one act plays. Lewis  
 Historical address on the Ter-centenary. Snow. (Presented)  
 Historical digest of the Provincial press. Weeks. (Presented)  
 History of paper manufacture. Weeks. (Presented)  
 Kindergarten stories for the school and home. Cragin.

## **Report of the Superintendent of Schools.**

---

To the School Board:

The school building at Greenland was more than a local schoolhouse. It was known throughout the state for its beauty and for its interior arrangement which was almost ideal. I believe the Commissioner of Education has used the picture of the Greenland building in a lecture on Education in New Hampshire and in educational exhibits in this and other states. So that the news of its destruction by fire has created a feeling of sympathy that has spread far beyond the limits of the town. New Hampshire educators were proud of the Greenland schoolhouse and will rejoice to see it restored.

### **A COMMUNITY CENTER**

Few school buildings have been used so widely for community purposes. The schoolhouse was the centre of most of the social and civic gatherings of the people of Greenland. During the month that has passed people have realized more than ever before how necessary it is to have such a gathering place. It was because it belonged not only to the children but to all of Greenland's citizens that everyone felt such a shock at the alarm of fire and such a deep sense of loss when he realized how much had been reduced to ashes. There is no question but that this has been a severe loss to Greenland and has created a situation that must be met with courage and with good sense and economy.

## GOOD TEMPORARY QUARTERS PROVIDED

It is hard to see how you could have acted any more promptly and effectively in providing temporary quarters for the school children. The new equipment began to arrive at Greenland depot within forty-one hours of the time of the fire and on the eleventh and twelfth days after the fire, the schools were being carried on with the loss of only one week of extended vacation. The arrangements that were made, it seems to me, were accomplished with noteworthy economy. All new equipment, except the stoves and jackets, was purchased with a view to its use in a new building. And the material salvaged from the ruins, I believe, will more than make up for the cost of materials and labor required in preparing the present temporary quarters. Greenland owes a debt of appreciation to the School Board, and to the Volunteers who made it possible to open school so promptly.

## THE SPIRIT OF THE TEACHERS.

The spirit of the teachers, too, in their hard situation is worthy of commendation. No one but a teacher who has been through the experience can fully realize how much they have lost. All the little helps to teaching, accumulated through several years of service, although of little money value, were of great value to the teachers and to the pupils for whom they were used. Books, to some extent, can be replaced, but treasures of clippings, poems, mottoes, patterns and pictures can only be regained by months of careful search. No teachers could have accepted the situation with better spirit or

with more helpful co-operation than have the teachers of Greenland. I think it should be your wish and the wish of the citizens to retain them in their positions as long as it is possible to do so. The great value to the children of having permanent teachers who understand them and are themselves a part of the community, should not be overlooked.

#### THE IMPORTANCE OF THE PRINCIPALSHIP.

The present situation by contrast calls attention to the importance of the principalship of the Greenland school. To teach the Junior High School, to supervise the work of other teachers, to lead the school in its extra activities and community work, and to handle with skill the many problems of attendance, scholarship, and discipline for a school like ours requires ability of the highest order. It calls for more in personal power and experience than the other teaching positions. When the change was made from scattered schools to the new building, the minds of the people were perhaps taken up with thoughts of the building and with community activities, so that it has taken time to realize the importance of the change. Now I believe the time has come when all should recognize the importance of this position and be willing to provide a salary adequate to the duties of a well-trained and experienced teacher.

#### NEEDS OF THE GREENLAND SCHOOLS.

I have not seen the children of Greenland, as you perhaps have seen them, stand gazing into the ruins of

their schoolhouse with the hope in their hearts that it will sometime be rebuilt much as it was before. With the grading all done, with the drains and cesspools ready for use, and with the possibility of using most of the foundation and walls now standing, I believe the best thing to do is to restore the building as it was with such changes as experience has shown to be necessary or advisable. I would like to have you consider the following changes:

1. That the building be heated by steam, preferably with a direct-indirect system of ventilation and heating. This will be necessary if much use is made of the basement, and I believe will be economical of fuel.

2. That the Domestic Science Quarters and Lunch Room in the basement be enlarged. Both were inadequate before.

3. That the Manual Training room be moved to the basement. If this is done, it will be necessary to provide heat and to see that there is adequate lighting from the windows.

4. That the assembly room and stage be enlarged.

5. That, if the cost does not prove prohibitive, the entire basement be excavated to provide for the improvements suggested above and to provide rooms for games and recreation which can be used as play-rooms

in severe weather during recess and the long noon hour.

I believe that the restoration of the building and the maintenance of a good school will do more than anything else to keep all available houses in Greenland occupied, to maintain the present value of property and to retain the present high standard of citizenry represented in Greenland.

I wish to express my appreciation of the universal good feeling of the people of Greenland toward the school and toward the superintendent. May I thank the members of the Board for your constant interest in the school and for your helpful co-operation in the many problems that come up during the year.

Respectfully submitted,

O. R. McCOY,

Superintendent of Schools.

## ESTIMATE OF EXPENSES AND REVENUE

**For school year July 1, 1924 to June 30, 1925.**

---

### ESTIMATED EXPENSES

1	Salaries of District Officers	\$ 55.00
2	Superintendent's Excess Salary	215.68

	\$11,060.96

Respectfully submitted,

FRANK B. MOODY,

Treasurer.

I hereby certify that the books and accounts of the School Treasurer have been carefully examined and found to be correctly cast and properly vouched.

IRVING ROLSTON,

Auditor.

## **Report of Trustees of Trust Funds**

To the Citizens of Greenland, N. H.

On Jan. 31, 1924 the present Board of Trustees of Trust Funds of the Town of Greenland had handed over to them 18 different Trusts with Principal aggregating \$6,100.00 also unexpended income amounting to \$745.95 of these Trusts 14 are for the care of Cemetery lots, 2 are for the support of Weeks Library, 1 for the repair of sidewalks near the Weeks Library, 1 for the support of schools. The 'tabulated report shows where each Trust is invested also the rate of interest. The Cemetery Association has recently been dissolved and the Funds from this Association added to Trust Funds making up this total. Owing to unavoidable circumstances the income from some of these Funds has not been expended during the past year which accounts for the surplus amount of dividends on hand at the end of the year.

Respectfully submitted,

ENGINE S. DANIELL,  
DONALD C. McLACHLAN,  
IRVING ROLSTON,

Trustees.
